## SUMMARY

Language agnostic software engineer that leverages both technical support background to create efficient and reliable software solutions and freelance Web developer background for timely completion of project requirements via clear client communication using Agile methodologies.

## WORK EXPERIENCE

### Technical CS Associate (L3)

Amazon (Blink division), Austin, TX

August 2023 - present

- Collaborated with backend teams to monitor system issues via Jira ticketing.
- Expert system log analysis to identify and isolate technical issues for swift resolutions to ensure an average resolution time of 16.5 minutes or under.
- Used internal tools to deploy firmware updates to resolve software-related product issues.
- Maintained monthly CSAT scores of 90% and higher.
- Proposed and secured approval for recovery email feature on user app, decreasing problem ticket volumes by 5%.
- Assisted in vetting applicants for our Bilingual Italian agents by formally evaluating applicant fluency during 2nd round interview.

### Web Developer

Freelance, Austin, TX

August 2022 - August 2023

- Applied Agile methodologies for continual feedback from clients resulting in timely project completion and accurate benchmarks.
- Implemented caching and compression libraries to improve website performance by reducing average file size by 50%.

### Customer Care and Tech Support Level 1

Stride Inc , Austin TX

May 2023 - August 2023

- Navigated robust Salesforce CMS knowledge base for case research regarding K12 E-learning related issues.
- Formulated technical solutions for K12 hardware ( partition restores, hard drive resets, browser resets etc..).

### Section Leader

Trader Joe's, Delray Beach FL

October 2016 - February 2022

- Managed a top-4 product department through analysis and interpretation of sales data and enforcement of business standards and practices.
- Received yearly bonus for outstanding performance by improving efficiency in inventory practices.

## LANGUAGES

English, Italian, French
